CONTENTS

Contents 3

Cholinergic Modulation of Spatial Learning in Mice in a Morris-type Water Maze. *Y. Lamberty and A. J. Gower* 5

Discriminative Stimulus Effect of Phenylephrine. *M. D. Schechter* 20

Pharmacological Studies of Lappaconitine: Supraspinal-Spinal Interaction in Antinociception. *M. Ono and T. Satoh* 32

Influences of Dopamine Agonists and Antagonists on Baclofen Antinociception in Mice. *M. R. Zarrindast and E. Moghaddampour* 42

Regional Vasodilating Effects of Spirapril Diacid and Enalapril Diacid in Anesthetized Dogs. *K. Noguchi, Y. Ojiri, T. Chibana, N. Kinjo, H. Moromizato, J. Nakasone and M. Sakanashi* 51

Comparison of the Cardiovascular Effects of Amineptine with those of Amitriptyline and Imipramine in Anaesthetized Rats. *A. Balcioglu, A. Bozkurt and S. O. Kayaalp* 64

Cardiohemodynamic Effect of a Novel Calcium Antagonist, SD-3211, in the Dog. *T. Takada, N. Miyawaki, K. Nishimura, K. Nakata, K. Matsuno, N. Ishida, H. Yamauchi and T. Iso* 75

Cardiovascular Depressant Effects of N-Methyl- and N-Isobutyl-1,2-Diphenyl Ethanolamines: Elucidation of the Mechanisms of Action. *K. E. H. ElTahir, M. A. S. ElNaser, A. M. Ageel, H. A. El-Obeid and K. A. Al-Rashood.* 88

Pharmacological Comparison of CK-2289, an Inodilator Agent, with Milrinone and Enoximone. *S. S. Greenberg, J. Paul and A. Luisi* 103

Positive Chronotropic and Inotropic Responses to Release of Norepinephrine from Sympathetic Nerve Terminals Produced by Nitroglycerin in Atria. *S. X. Ma and J. P. Long* 125

Characterization of Postsynaptic α-Adrenoceptors in the Isolated Rat Tail Artery. *E. A. Savino and A. Varela* 137

Pharmacological Characterization and Autoradiographic Localization of Dopamine Receptor Sites in the Caudal Artery of the Rat. *M. Mancini, A. Ricci and F. Amenta* 147

Augmented Responsiveness to Sympathetic Nerve Stimulation of Isolated Vas Deferens of Diabetic Rats. *Y.-T. Wang, Y. Takiguchi, T. Uematsu and M. Nakashima* 160

Protective Effect of (4R)-Hexahydro-7,7-dimethyl-6-oxo-1,2,5-dithiazocine-4-carboxylic acid (SA3443), a Novel Cyclic Disulfide, on Immunologically Induced Liver Injuries in Mice. *K. Nakata, M. Sasano, K. Matsunaga, M. Tanaka and S. Mita* 170

Effect of Activated Charcoal on the Disposition of Sulphadoxine. *A. Akintonwa and O. Obodozie*. 185
